EQUIP, EMPOWER AND TRAIN
TO BUILD ROBUST
CYBER FORENSIC
CAPABILITY

Mibiz Technologies believes in Knowledge economy as our Chief Patron His Excellency Former President of India Late Dr A.P.J. Abdul Kalam's Vision 2020 for empowering our nation with Knowledge economy. Mibiz Cyber Forensic is a Cyber Security [Cyber Forensic Laboratory (CFL), Investigation & Services, Training, and Auditing] division. Our Motto for the Cyber Forensic Project is "Equip, Empower and Train to build robust Cyber Forensic capability".

CYBER FORENSICS LABORATORY (CFL)

Mibiz Cyber Forensics strength is our team having experience in the Cyber Forensic field for more than two decades and has the capability to establish well equipped state of the art **Cyber Forensic Laboratories (CFL)** across the nation under a strategic business plan with Government Organizations, Universities, Banks and other financial institutions, Public and Private Sector Undertakings.

Mibiz Cyber Forensics will provide adequate resources to setup a **Cyber Forensic Laboratory (CFL)** Infrastructure including manpower, hardware and software with cutting edge Technologies to run the **Cyber Forensic Laboratory (CFL)** to reach a high level of performance. Mibiz Cyber Forensics is well equipped to provide adequate training to select staff of the Cyber Forensic Laboratories (CFL) to handle the functions when the unit is handed over to become self reliant. Besides, Mibiz Cyber Forensics conducts Corporate level training programs and undertakes Cyber Forensic Cases to unearth the truth and to its possible conclusions.

CYBER FORENSICS INVESTIGATION & SERVICES

Mibiz Cyber Forensics Investigation & Services have already made a mark in providing assistance to Government Organizations, Public and Private Companies in investigating Cyber Crimes committed by both internal and external sources and presenting digital evidence in the manner acceptable to courts of Law.

Mibiz Cyber Forensics enables one to get the digital evidence during investigation of a Cyber Crime. Evidence is culled out from the suspect Computer medium with the help of appropriate Cyber Forensic tools. Mibiz Cyber Forensics Services has expertise in Mirroring of Desktops, Laptops or Standalone Systems, Detailed Analysis of Desktops, Laptops or Standalone Systems, Mirroring / Imaging of Live Systems, Network Analysis of Live Systems.

CYBER FORENSICS AUDITING

Mibiz Cyber Forensics has expertise in Cyber Auditing. Mibiz Cyber Auditing is performed on suspect systems / terminals periodically to understand the activities performed by an Employee in a system / terminal. The Audit log throws open the different websites visited and this enables the Organization to confirm as to whether any breach of Security was committed and also understand the nature of the violation.

CYBER FORENSICS TRAINING

Mibiz Cyber Forensics Training provides high quality Training Programs in troubleshooting Cyber Security. We are conducting training programmes focused on imparting knowledge on cyber forensics. We are carrying out various levels of training from Awareness to Advanced level courses to personnel from agencies. Training will be provided if the total number of participants exceeds Twenty. As a startup model we will provide One/Two Day Training Programs in troubleshooting Cyber Security. We will be working joint hands with prestigious organization to achieve great momentum in the field of Cyber Security Training to reach a high level of performance. Mibiz Cyber Forensics is well equipped to provide adequate training to handle the functions when the unit is handed over to become self reliant.
